Educational Background

AGROECONOMIST ENGINEER

National Agronomic Institute of Tunisia

June 2013

Tunisia - Tunisia

I was able to integrate the I.N.A.T, after two years of preparatory cycle in Biology-Geology, where I had the opportunity to deepen in plant and animal biology as well as geology. As a next step, I aim to deepen the knowledge I gained during my studies in the fields of agricultural and agro-food economics, production and risk management that I acquired throughout My training and to make you benefit from my dynamism and my ability to adapt. . During the engineering cycle, I acquired skills in economics, farm management, accounting and project analysis.
